Health & Safety Management systems
Onsite machinery safety inspections
Legionella risk assessors
Electrical safety testing
Crane and lift inspection
Bricks, blocks, insulating products, lintels, slates & tiles tested
Installers of energy renewables
Tested for fire resistance
PEFC sustainable timber sourcing
Inspection of welding pressure vessels, and piping
Environmental Management systems
Tested for air leakage, waterproofing, and acoustics
Testing of construction products such as doors, windows and shutters
Inspection of signalling
Energy Management systems
Fire risk assessors
Asbestos surveyors
Waste management systems
Rail interoperability
Gas fitting operatives
Dynamic pile tests to ensure safe foundations
Fatigue and stress testing of support structures
Steel tested
Road signs tested for reflectivity
Road tested for skid resistance
Testing soil and groundwater for compressibility, strength and contaminants
Aggregates tested
Sports & playground surfaces tested
STADIUM
