

ILAC Web Link Guidelines

The ILAC web link has been created specifically to link to the ILAC website from a Member's own website.

It should only be used following these guidelines, and must not be modified or adapted in any way. To ensure the quality of reproduction, the web link should only be reproduced from the master artwork provided.

Please contact the ILAC Secretariat at ilac@nata.com.au if you would like a copy of the web link for this purpose.

Colour Variations

The web link should be reproduced in either the blue ILAC pantone or a black version is available for use.

Size

The width of the web link must be **no higher than 20mm and no smaller than 15mm**. The proportions must not be amended.

Exclusion Zone

To ensure the web link appears clearly and prominently, it must be kept clear of any visual elements. To regulate this, an exclusion zone of 5mm has been established around the web link.

The exclusion zone indicates the closest any other visual element can be positioned in relation to the web link.
